

# D6.8 Report

## WP6 Dissemination

***Presentations, press releases, articles throughout the project***

### Summary

Even though there has been no actual task involving dissemination via press releases and articles, the project partners has been active publishing articles, sending out press releases and publishing posts on social media, promoting PRIMES findings and actions. Of the 163 articles, 79 has been published in print newspapers or on external web pages for example municipality, procurement or news portals. Furthermore 11 press releases has been sent out and almost 250 social media posts has been published.

	<i>- - - number of - - -</i>		
	Press releases	Articles	Social media posts
Sweden	6	13	153
Denmark	0	3	5
Latvia	0	31	2
France	1	5	0
Italy	4	60	64
Croatia	0	51	21
<b>Total sum</b>	<b>11</b>	<b>163</b>	<b>245</b>

*The presentations were previously compiled in this report, but as the presentations always has been held at seminars, workshops and TFIs and such, we've moved the reporting of them to D6.6 national dissemination activities report, to make it convenient when evaluating the reports.*

## Major activities and achievements

The dissemination activities described in Annex 1 has been focused on contacts with municipalities, either personally through meetings and mails, in larger groups through workshops and seminars, or through mass dissemination via newsletters, web and social media. This report focuses on the latter two parts: web and social media, with the addition of articles and press releases.

ESS developed a template including instructions for news stories, to be used for press releases and for publication on PRIMES and partner web pages. See attachment: *Template PRIMES news.pdf*

Partners has published articles on their own web pages and also have had quite some media attention on the activities, mainly online but some print articles and even some radio and TV spots (in Italy and Croatia). The major part of the activities has been during the last part of the project, due to the case studies being finalized towards the end, but there have been activities during the whole project period.

Sweden, Italy and Croatia has active social media accounts and have used these for dissemination. Sweden has 402 followers on Twitter and a reach on Facebook of 800 during September 2016. Italy (Anci Liguria) has around 200 followers on Twitter and around 1200 friends on Facebook, Croatia (UNDP) has 2364 followers on twitter, and 1493 likes on Facebook.

On the PRIMES web page there are 25 published news stories. <http://primes-eu.net/news-events/news/>.
