1. Angelika Tisch presents calculators

In Koprivnica we agreed that our next online meeting should be about calculators. Therefore we are glad to say, that ICLEI has found a really good presenter to give us an introduction to the GPP2020 calculators. Dr. Angelika Tisch from the GPP2020 project will make a presentation (app. twenty minutes) on how the calculators work and how we can use them in PRIMES. Afterwards there is time for questions and discussion.

Angelica made a very valuable thorough presentation and demonstration of the computer, vehicle, street lighting calculators and Energy Contracting.

All calculators can be found on GPP2020.eu
