

Minutes Online Conference

17. April 2015

Adobe Connect: <http://frea.adobeconnect.com/p8h9gkqo037/>

Participants: Elisabetta (ANCI and LIG), Francesca (ARE), Gabriella (ARE), Nils (ECnet), Michelle (ECnet), Peter (ICLEI), Sarah (HOL), Christel (ESS), Jean (RAEE), Johanna (ESS), Jelena (UNDP), Jørgen (HOL) ref.

I. Highlight from TF Reports (WP Leaders)

Peter gave a short description of the training activities made in the different countries, and described differences between the traditional procurement behavior and traditions in different regions of Europe.

Nils and Michelle are working with the evaluation of the common performance indicators. Here Michelle stressed that each partner must indicate clearly the type of intervention in the template. Nils said that he was interested in receiving information on ongoing task force interventions – even if they consist of some uncertainties.

Francesca gave an overview of the task force interventions made in all countries showing that we are behind schedule in relation to the number of task force interventions. The number of case studies is also a little behind schedule.

Johanna explained that there has not been much to disseminate, as she has not received a sufficient number of case studies.

2. Agenda for Riga

Peter asked for input on the meeting to necessary modifications of the training materials. For instance Life Cycle Costs.

Nils would like to work with and discuss the performance indicators during our partner meeting in Riga for instance on a workshop at the meeting. Further Nils wants to discuss the next steps in relation to the evaluation of each intervention.

Francesca wants to discuss how to catch up on the delays with the task force interventions at the partner meeting.

Johanna wants to discuss how to choose the 86 case studies out of the 114 task force interventions

Nils proposed to arrange a common GPP2020 PRIMES meeting in Riga, which it was decided to work on for instance by inviting a GPP2020 representative to participate on our PRIMES meeting.
